Github: <https://github.com/SNHoff53>

Portfolio: <https://snhoff53.github.io/SHoffman-Portfolio/>

Summary

Full Stack Web Developer, seeking to leverage business, marketing and legal background to build and create enjoyable and dynamic websites for clients. Eager to join an innovative and quality-driven team at a company that strives to deliver exciting and new experiences for their client's needs.

Technical Skills

Languages: HTML5, CSS3, JavaScript, jQuery, JSON, Node.js, APIs and AJAX, React.js

Technologies Used: Passport

Databases: Firebase, MySQL, MongoDB, Sequelize and Mongoose ORM

Other: Github, Gitlab, Heroku, Bootstrap, Materialize, Microsoft Office Suite

Projects

Crystal Collectors Game — September 2019

Github: <https://github.com/SNHoff53/unit-4-game>

Deployed: <https://snhoff53.github.io/unit-4-game/>

Languages: HTML, CSS, JavaScript/Query

Overview: Player will be given a random Target Score at the start of the game. Player will click on a crystal of their choice, which holds a random value. Each time a crystal is clicked, that value is added to Your Score. The Player wins by matching Your Score to the random Target Score. They lost the game if Your Score goes above the Target Score. Each time a new game begins, the value of each crystal and Target Score will change.

GifTastic — October 2019

Github: <https://github.com/SNHoff53/GifTastic>

Deployed: <https://snhoff53.github.io/GifTastic/>

Languages: HTML, CSS, JavaScript/Query, APIs and AJAX calls

Overview: User can choose from pre-populated gifs or add their own to the gif queue using the search bar.

LIRI Bot — September 2019

Github: <https://github.com/SNHoff53/liri-node-app>

Languages: JavaScript, Node.js, npm packages, Axios, Moment.js; APIs: Spotify, OMDb, Bands-In-Town

Overview: This is a "LIRI" application. LIRI will be a command line node app that takes in parameters and gives users back data.

Bamazon — November 2019

Github: <https://github.com/SNHoff53/bamazon>

Languages: JavaScript, Node.js, Node File System, NPM inquirer, NPM MySQL, MySQL database

Overview: This application is an Amazon-like- storefront, using MySQL. The app takes in orders from customers and depletes the stock amount from the store's inventory.

Experience

Operations Program Coordinator; Slalom; Seattle, WA; February 2019 — Present

- Provided operational and administrative support for various internal programs.
- Created a SharePoint site removing the need of hundreds of manual requests, enabling self-service and streamlining our processes relating to an internal learning program.
- Assigned specific tasks to members of Cross Seattle Learning team, to ensure consistency of core-class offerings for newly hired employees.

Cofounder; Pacific Northwest Regional Strategies, LLC; Mukilteo, WA; October 2014 — Present

- Reviewed and analyzed current and proposed legislation to advance client interests.
- Constructed proposals, contracts and verbal testimony on behalf of clients, which resulted in the advancement of client interests for several issues.
- Assisted in the organization and management of client's campaign for city council.
- Negotiated contract expansions leading to the growth of client's business, including allowance for three new trucks and six new employees, which resulted in a commiserate expansion of client's business.

Practice Management Coordinator; Davis Wright Tremaine; Seattle, WA; June 2016 — February 2019

- Redesigned critical budgeting spreadsheet leading to a 12% reduction of time required for budgeting tasks.
- Performed research, composed documents, and acted as liaison between internal customers to support business development and client relations.
- Streamlined data by generating reports for attorneys and management using data retrieved from internal sources and Google Analytics.
